Author: <b>Zargon1</b> Date/Time: <b>14 Feb 2007 9:32:50pm</b> Subject: <b>Snapit Ampoule Opener</b>	The Snapit Ampoule Opener appears to be a fantastic invention. Recently a colleague of mine cut her finger on a glass ampoule which resulted in four stitches and a week off work. With 23 years nursing experience I have cut my fingers on glass ampoules countless times. These cuts potentially leave me susceptible to infection with Hepatitis B, C, HIV or other blood borne diseases. The Snapit Ampoule Opener is a potentially life saving device. Congratulations Glen

Author: <b>BDD</b> Date/Time: <b>16 Apr 2007 9:21:41pm</b> Subject: <b>Re: Snapit Ampoule Opener</b>	I also believe this to be a Fantastic Invention ... My Beautiful Wife is in her 2nd year Uni to become a registered Nurse and during her placement at a Hospital has come across the cut finger on a glass ampoule, she had only said to me 3days ago someone should invent something so this would not happen and now it has happened.
